## About us

Europratsya.com was developed by a team of digital workers from Serbia, Scotland and Italy.

Our small group wanted to ensure that skills and expertise aren't wasted when Ukrainian families are building new homes, whether temporary or for the future.

We want to match the needs of European employers with the qualifications of the highly educated Ukrainian people.

We also want to simplify research and job-hunting for people who are on the move.

Europratsya CIC was founded in the UK as a not-for-profit organisation to fund the web-hosting and to employ the Ukrainian employees who deliver the translation services. Volunteers across Europe research and post updates on employment law and visas.

If you have expertise to support us, please email [info@europratsya.com](mailto:info@europratsya.com).

Vernadsky polar research station. 12 Ukrainian scientists winter here for 10 months in extreme conditions, delivering widely acclaimed climate change research.
